

JOHN ACE BAUTISTA

IT Student

aceys2005@gmail.com

EDUCATION

- **Northeastern College**
  BS Information Technology
  Expected Graduation: 2028
- **Sagana National High School**
  Junior High School (Grade 7–10)
  2016 - 2021
  Senior High School (Grade 11–12)
  2021 - 2024

SKILLS

Programming:
PHP, HTML, CSS, JavaScript, MySQL

Database:
MySQL

Tools:
Visual Studio Code, Git, XAMPP, Cisco Packet Tracer

LANGUAGES

- Filipino
- English

OBJECTIVE

Motivated and dedicated IT student seeking opportunities to apply my technical skills, problem-solving abilities, and eagerness to learn in a real-world environment. I aim to gain hands-on experience, contribute to a professional team, and grow as a future IT professional.

PROJECTS

PHP MVC Payroll Management System

- Developed a web-based payroll system using PHP MVC architecture with Bootstrap for a responsive UI.
- Implemented user authentication, role-based access control, and CRUD operations for employees, attendance, and payroll.

Networking / Cisco Packet Tracer

- Designed and simulated a physically segmented network for Northeastern College using VLSM and custom subnetting.
- Configured routers, switches, and VLANs to connect multiple departments and services (e.g., admin, faculty, labs, library).
